Researchers from outside of Poland are welcome to apply now for a scholarship offered by The Ulam Programme [https://nawa.gov.pl/en/scientists/the-ulam-programme](https://nawa.gov.pl/en/scientists/the-ulam-programme)

The Programme provides financing for a Scholarship that covers the living allowance for a foreign scientist during research visit to Poland, that may last from 6 to 24 months. The call for applications under the Programme is open until 15 April 2020, 3:00 PM according to the official time in Poland.

The Department of Mathematics of the Pedagogical University of Cracow should be considered as a host institution. It will provide assistance with the application process and during the visit. If you are

- a scholar whose field of expertise is mathematics education,
- a researcher who looks at the teaching and learning of mathematics through the lenses of the history and philosophy of mathematics

you may be interested in collaboration with our team of mathematics education researchers. Cracow is the cradle of Polish didactics of mathematics and in the 20th century prof. Anna Sophie Krygowska laid down the foundations for a new (at her times) branch of scientific inquiry right at the Department of Mathematics of the Pedagogical University of Cracow.

Activities that we expect to be carried out by the researcher during the scholarship:

- active participation in working seminars on mathematics education held once a week at the Institute of Mathematics
- submitting at least one grant proposal per year, conducting research and publishing together with mathematics educators from the hosting University
- sharing expertise in didactic classes at the host University (30-120 teaching hours for the whole stay).

Outside of regular activities, the researcher will be free in setting his or her own schedule.

If you plan to apply for the scholarship offered by The Ulam Programme and you consider the Department of Mathematics of the Pedagogical University of Cracow as your hosting institution, do not hesitate to contact us in case of any questions.
